

Declaration by the Management and Supervisory Boards of zooplus AG
pursuant to Section 161 of the German Stock Corporation Act (AktG)

regarding the recommendations of the “Government Commission German Corporate Governance Code”

The Management and Supervisory Boards of zooplus AG declare that they have corresponded with, and in future will continue to correspond with the recommendations of the Government Commission German Corporate Governance Code (in the version dated June 24, 2014) announced by the Federal Ministry of Justice in the official section of the electronic federal gazette since the last declaration of conformity in November 2013, with the following exceptions:

Item 3.8 paragraph 3: The current D&O insurance does not include a deductible for members of the Supervisory Board. The Management and Supervisory Boards believe that a deductible does not change the sense of responsibility and loyalty with which the members of the boards perform their tasks and functions.

Item 4.2.3 paragraph 2 sentence 8: A retroactive adjustment of the comparison parameters is possible in the organization of variable remuneration components under precisely defined conditions. The members of the company’s Management Board are granted a long-term incentive program in the form of a share price-based performance share plan in annual tranches. With every tranche, the members of the Management Board of the Company will be allocated a number of virtual shares in the Company depending on EBT target achievement. These shares are subject to a waiting period of three years and can lead to a cash payout to Management Board members of the Company after the waiting period expires. The program provides for the opportunity to adjust the EBT target figure of the respective current financial year and future financial years if considerable changes are to be expected due to transactions and the Company and the entitled parties agree to such adjustments in writing during the financial year in question, or before the start of the financial year. A change is considered considerable if the EBT target figure changes by more than 5% compared to the EBT target figure for the financial year in question due to a transaction (purchase of companies or interests). An entitlement to an adjustment is excluded. The regulation serves to ensure the fair calculation of the EBT target figure for both sides given the case that companies or interests are acquired.

Item 4.2.3 paragraph 4 sentence 3: In the case of the premature termination of a contract of a Management Board position, the calculation of the severance payment cap is not based on the total compensation of the previous year and the expected total compensation of the current financial year. Management Board contracts provide for a limit to the severance payment cap at two annual remunerations for the case of premature termination of contract. Such an agreement, which calculates the severance payment cap on the basis of the total compensation for the past full financial year and if appropriate also the expected total compensation for the current financial year, is unable to sufficiently take into account the concrete conditions which may later lead to a premature termination of a Management Board contract and the other factors in the individual case at the time of the termination.

Item 4.2.5: The company does not state individualized information on the remuneration of specific members of the Management Board as a result of the resolution by the Annual General Meeting on May 22, 2012, according to which disclosures pursuant to section 285 no. 9 a) p. 5-8 HGB and section 314 para. 1 no. 6a) p. 5-8 HGB are not provided.

Item 5.3.3: The Supervisory Board did not form a nomination committee as the drafting of selection suggestions should be undertaken by the entire Supervisory Board in its own view. The entire Supervisory Board will therefore continue to pay close attention in future to the selection of suitable candidates proposed to the Annual General Meeting.

Item 5.4.3 sentence 2: Suggested candidates for the chairmanship of the Supervisory Board are not announced to shareholders as the selection of the chairman of the Supervisory Board is an internal matter for the Supervisory Board and therefore its own responsibility. The Supervisory Board selects a chairman and deputy chairman from within its ranks by virtue of its own organizational provisions at the first meeting after its election by the General Meeting. A prior announcement of the candidates for the chairmanship of the Supervisory Board is therefore not appropriate in the view of the company within this context.

Item 5.4.6: The chairman of the Supervisory Board is taken into account in the remuneration structure of Supervisory Board members, as is the chairmanship of respective committees. The deputy chairman of the Supervisory Board, as well as the membership of committees is not taken into account in the remuneration structure of Supervisory Board members as the workload of the deputy chairman or members of committees is not significantly different from that of the remaining Supervisory Board members.

Item 6.3: zooplus AG publishes the interests of Management Board and Supervisory Board members in zooplus AG in line with legal requirements, if the legal reporting levels pursuant to section 21 of the German Securities Trading Act (WpHG) are exceeded or undercut, as well as all "director's dealings" among this group of people in line with section 15a of the German Securities Trading Act (WpHG). The Management and Supervisory Boards believe that this information, which fulfills the legal obligations, is sufficient for investors and the general public.

Item 7.1.2 sentence 2: The semi-annual and quarterly reports are not discussed by the Supervisory Board or an examination committee with the Management Board before publication. This could otherwise lead to delays in capital market information for time-related reasons.

Item 7.1.2 sentence 4: The interim reports are each published at the latest two months after the end of the reporting period, and therefore within the two-month period required by Frankfurt Stock Exchange's regulations for listing in the Prime Standard. zooplus AG believes that this deadline is sufficient to ensure proper accounting.

Munich, December 3, 2014
